3. Vital Materials

- a. Microfilming of Vital Materials in the Security Office continues, This project is approximately 25% complete.
- b. A call was received from Mr. [REDACTED], Area Records Officer for Medical Office, informing us that the medical files of relocation personnel will not be microfilmed this year.
- c. A meeting was held with members of OCR to discuss what should be done to relieve a deficiency in the OCR/Graphics Register Ground Photographic Collection at the Repository, which has existed since 1952.

25X1A9a

This meeting was successful and a plan was approved which will bring this file to a current status and provide for the current deposits of all future additions. There had been considerable controversy for the past four years as to the best method to be employed in providing for a current collection.

Much of the credit for bringing about a final solution to this problem should be given to Mrs. [REDACTED] Assistant to Mr. [REDACTED] ARO/OCR.
